ShowPropConditional

Shows or hides a property based on a bool method.

How to use

Put the attribute in front of a property.

Examples

```csharp
[SerializeField] private bool _isMagician;
[SerializeField]private int _currentLevel;
[SerializeField][ShowPropConditional("ShowUltraSpellProp")] private int _ultraSpellCount;

private bool ShowUltraSpellProp()
{
        return _isMagician && _currentLevel > 3;
}
```
